

EISENHOUR Church Furnishings

Quality Restoration

www.eisenhourchurch.com

Eisenhour Church Furnishings has over 40 years experience in the church industry and understands church requirements. Our specialty is pew restoration. Refinishing pews at the factory will restore them to like new quality and the finish will endure for decades. Along with refinishing pews, upholstery can be added or replaced. Kneelers can be refinished and new padding added or add the new style metal framed kneelers.

Pews will be removed from the church and returned to the factory for restoration. Broken and damaged parts will be repaired. Nails in older pews will be removed and replaced with screws to help eliminate gaps, squeaks, and weak areas. When pews are returned from the factory, they will not only look great, but will be improved structurally. To the right are some before and after pictures for church refinishing projects.

Eisenhour Church Furnishings supplies a wide array of services to churches of all denominations, please feel free to browse our websites gallery for more before and after images as well as, our selection of pews, chancel furniture, chairs and more....

www.eisenhourchurch.com now features **TIDBITS**, a daily expanding "How To Log" of information ranging from wax removal to moving pews. *Please feel free to share solutions with the pewman@eisenhourchurch.com*
