Dear Ron,

Thank you for your exceeding kindness in returning my call last Tuesday. It was obvious from our conversation that you are well familiar with your business and the installation of church pews. Moreover, you understand the difficulties in re-carpeting.

Thank you for the conference call this Thursday morning. The man whom I told you is an engineer was impressed by your knowledge and orderliness. Now all I need is your prayers that our job will be worked out well.

Thank you again for your gracious kindness to us.

With warmest personal regards in Christ,

Dr. J. Arnold Fair
