Eisenhour Church Furnishings

Dear Ron:

I am writing you this letter on behalf of our entire congregation. We can never begin to thank you enough for all you did in our sanctuary remodeling program.

We are delighted with the entire effect of our worship area. The pew padding and fabric blend perfectly with the decor and the actual installation looks as though it will last 100 years. The "special" treatment you gave our stained glass windows has made them like new. The plexiglass covering will keep them safe from vandalism and weathering. I know from personal experience that it will save us money in utilities. The choir and chancel furniture gives the church a finished look.

In addition to all of this, the workmen you sent to our project were not only highly skilled professionals, they were delightful to work with and be around.

"Friendly First" also thanks you for all your advice, counsel, and love during our working together. It was personally enjoyable for me to work with you. Your greatest selling point should be your availability and willingness to work with people.

If we can ever tell anyone what it is like to work with Eisenhour's, please feel free to have them call or write: First Christian Church, 110 East Vine St., Mount Vernon, Ohio.

Your Friend in Christ,

Rev. Larry G. Deitch, Pastor
