Mr. Ron Eisenhower  
Eisenhower Church Furnishings

Dear Mr. Eisenhower,

We are delighted with the pew cushions you have installed in our church. Our members, particularly our senior citizens, have made many favorable comments about improved circulation in their legs and back while sitting in the church service. Members with back problems and one in particular with Osteoporosis are very pleased. Some of them were not able to come to church services here until the cushions were installed.

There were two added benefits that we did not expect. First the color of the pew cushions have improved the decore of our church. Far more meaningful to me has been the dramatic improvement of the acoustics in our church. The echo in our building made long pauses necessary so the members in certain parts of the nave could hear what I was saying. The cushions greatly reduced the echo and allowed us to turn up the sound system without getting the usual feed back.

Yours in Christ,

Pastor Cascione
